

Lite SSL Certificate

The Lite SSL Certificate is a SSL Certificate which is designed up to 256-bit encryption. This certificate will secure websites, intranets and extranets. As these SSL Certificates are considered reliable by more than 99 percent of today's internet users, Lite SSL Certificates are the ideal way to secure your server.

Features

- Reliable Root
- Extremely fast issuance
- 99% browser compatibility
- Till 256 bits encryption
- No paperwork, online validation

Benefits

- Excellent priced
- Professional support
- Payment after invoice or online
- Online management portal
- Automated applications (API)

The procedure

Make the request for the certificate on the website of ssl.nu.

You will receive a confirmation email. Select the link to activate the certificate.

Install the SSL Certificate and Site Seal.

To verify the completed installation, use the Site Check.

Speed of Issuance and Validation Process

The speed with which you receive your SSL Certificate depends largely on the validation process. A Lite SSL Certificate can be issued by ssl.nu within a few minutes. It therefore has a lower trust level than an organization or extended validation certificate.

Includes Replacement Warranty

A Lite SSL Certificate does not include a replacement warranty, which means that in case you lose your Private Key, request the wrong/inaccurate CSR or perform wrong installation actions, a new SSL Certificate must be purchased.

Till 256 bits encryption

Data you send will be encrypted at all SSL Certificates. They can not be read by third parties, or intercepted or changed by others. The gravity of the encryption depends on used the server and web browser and is currently up to 256 bits.

Reliable Root

It is very important that your SSL Certificate is published on a reliable Root. The Lite SSL Certificate is therefore issued on the RapidSSL CA Root. This is a reliable Root embedded in most browsers for years already.

Prices

By purchasing an SSL Certificate for multiple years you don't save only an attractive amount annually. The installation of the certificate is then required only once, so you will not have to install the certificate every year again.

Period	Price	Profit
1 year	€ 25,00	
2 years	€ 44,00	€ 6,00
3 years	€ 63,00	€ 12,00
4 years	€ 82,00	€ 18,00
5 years	€ 99,00	€ 26,00
